Dear Edison Families,

Student and staff safety is of the utmost importance to Edison Local Schools. In the interest of transparency, we want to make you aware of a concern brought to the attention of law enforcement regarding a social media photograph involving an Edison High School student.

The photograph showed what appeared to be a handgun tucked into a student's waistband. Law enforcement immediately followed up with the identified student and family, reviewed the photograph, and examined the item pictured. **The item in question was identified and verified as a squirt gun.** The photograph was posted several months ago, and no direct threats were made.

There is no current threat to any Edison students or staff related to this matter. We are communicating this information to provide an accurate understanding of the situation and to prevent unnecessary speculation or concern.

We encourage students and families to promptly report any safety concerns to school administration or law enforcement. We are grateful to the person who reported this concern. Speaking up is exactly the right thing to do, and it helps keep our schools safe.

Thank you for your continued partnership in keeping our schools safe.

Sincerely,

Cory J. Smith
Superintendent
Edison Local Schools
